# Alicia & Jesse

## August 27 2018

After stumbling upon Erin's work on social media, I knew if I ever got married that I would want her as my wedding photographer, so when Jesse proposed at Hatley Castle, I knew I had to make it happen! Once we had a tentative date for the wedding, I immediately contacted Erin for her availability — and though we had less than 8 months to plan the wedding, everything (surprisingly!) worked out perfectly.

Erin, you are an exceptional and extremely talented photographer! Jesse and I, are always super awkward in front of a camera, but you made us feel more at ease, especially when directing us where to look (haha!). You were able to capture the emotional spirit of our wedding day, and even months after our wedding, I find myself capable of reliving the spirit of that day through your beautiful and timeless photographs. I still smile at my husband's first look, laugh at our goofy souls, and cry from the emotions felt by my family and self — all which were so effortlessly captured by you. Jesse and I, are forever grateful for these beautiful memories and we cannot wait to share them with our loved ones!

With love, Alicia
